

HP AC Logs Collector Tool

Summary

The HP AC Logs Collector is a tool that copies logs and other files used for troubleshooting from their various folders into one zipped location. Customers or TCs can run the EXE to automatically collect all the necessary files for troubleshooting, and then send the zip file to Support.

The tool can be used for HP AC versions 15.x or 16.x.

HP AC Logs Collector Tool

1. If using HP AC 16.3, the HPACLogsCollector.exe file is in the \HP Access Control\Utilities folder. If using an older version of HP AC, copy the HPACLogsCollector.exe file to any location on the HP AC server.
2. Run the EXE as an administrator.
3. Log files will be copied into a zip file (in the \HP Access Control folder) named "CollectedLogs_XXXXXXXX_XXXXXX.zip", where "XXXXXXXX_XXXXXX" is the date and time the file was created. After the zip file is created, the following message displays, notifying the user of the location of the zip.
