

HP SDS Manager Fields

Document Revision v2.2

Document Overview

This document will explain the data which is electronically collected and can be manually inputted in HP SDS Manager.

Data Gathered and Manually Entered in HP SDS Manager

Asset Data - Electronically collected

- Discovery Date
- Last Updated
- Serial Number
- IP Address
- Hostname
- MAC Address
- MIB Description
- Firmware
- Location
- Manufacturer
- Model
- SKU

Asset Data - User Inputted fields

- Asset Number
- Sticker Number
- Monitor Status
- Zone
- Delivery Location
- Consumable Key User
- Comments

CNBVHB5138

Color LaserJet Managed Flow MFP
M577cm
(HP)

Device Details

Device ID	1
Discovery Date	27-Jan-2022 14:56:58
Last Updated	✓ 12-Jun-2026 15:07:06
Serial Number	CNBVHB5138
IP Address	192.168.1.161
Hostname	NPIAFBBEA
MAC Address	308D99AFBBEA
Asset Number	
Sticker Number	Pillar-01
MIB Description	HP Color LaserJet FlowMFP M577
Firmware	2505192_030538 [20220602]
Location	
Manufacturer	HP
Model	Color LaserJet Managed Flow MFP M577cm
SKU	B5L50A
Monitor Status	Fully enabled (managed consumables)
Zone	192.168.1.1-254
Delivery Location	[As per zone]
Consumable Key User	[As per zone]
Comment	

Data Gathered and Manually Entered in HP SDS Manager

Consumable - Data Collected

- Description
- Type of consumable
- Colour of consumable
- Current level
- Date / Time of reading

Consumables - Calculated values

- Days Left
- Pages Left

Latest Page Counts

- All meters are electronically collected and stored daily

Current Alerts

- Device alerts can be configured as desired

Custom Data

- Custom user fields can be created as required

Glossary of Fields

Field Name	Electronically collected or manually entered	Description
Asset Number	Manually Entered	Manual text field, suggest that it contains your Asset reference or unique identifier
Sticker Number	Manually Entered	Manual text field, suggest that it contains your customers reference, location or unique identifier
Zone	Manually Entered	Manually created field, suggest that this refers to a physical location
MIB Description	Electronic	Device model description as provided by the MIB
Discovery date	Electronic	Date device was 1 st discovered by the system
Model	Electronic /Manually Entered	Automatically set from the MIB description but can be manually overridden if required
Manufacturer	Electronic / Manually Entered	Automatically set from the MIB description but can be manually overridden if required
Monitor Status	Manually Entered	Fully enabled, consumables only (no alerts), reports only, disabled
Delivery location	Manually Entered	Manually entered - Address for consumables delivery, generally set by zone
Consumable Key User	Manually Entered	Manually entered – Linked to an name, email and telephone number, generally set by zone

Glossary of Fields

Field Name	Electronically collected or manually entered	Description
Comments	Manually Entered	Manually entered free form text field for any text required. Cannot be added to reports
Consumables Est days	Electronic	Calculated days remaining until the consumable runs out
Consumables Est pages left	Electronic	Calculated pages remaining until the consumable runs out
HP SDS - MSKU State	Electronic	Has the device got the MSKU cartridges installed ? (Present or not present)
HP SDS - Activation Status	Electronic	Are the MSKU cartridges active (has JAMC authorised the MSKU cartridge)
Firmware Version	Electronic	Device firmware version as provided by the MIB (Minimum DCA v25)
Location	Electronic	Device location as provided by the MIB (Minimum DCA v25)
Last Updated	Electronic	The date that the device last updated as provided by the MIB
